With over two years of industry experience as a software developer, I am a self-motivated team player known for independence and drive. My expertise includes a sound knowledge of Java, SQL Database, Spring Boot.

Core Competencies

- **Programming Languages:** Java, JavaScript, Nodejs, Python, React, CSS3, HTML5.
 - **Frameworks and Plugins:** Spring, Spring Boot, Spring Modules, J2EE, JUnits, JavaFX, Express.js (Node.js), MVC WebFrameworks.
 - **Web Technologies:** RESTful APIs, Web service, Servlets, WebSocket.
 - **Messaging:** Kafka, Apache Camel.
 - **Cloud:** Microservices
 - **Tools & Utilities:** IntelliJ, Eclipse, NetBeans, JIRA, GitHub, JMeter, Appium, Selenium, Sikuli, Android SDK
 - **Operating Systems:** Linux, Unix.
 - **Databases:** MySQL, MS SQL Server, Oracle.
 - **Code VS, CI/CD:** Maven, Git, Jenkins
 - **Web/Application Servers:** Tomcat, Glassfish.
-

Basic Skills

- Proficient in the Java programming language.
- Strong understanding of developing RESTful APIs using Java 8.
- Experience with Java frameworks such as Spring.
- Good understanding of developing REST APIs from JavaScript based UX.
- Knowledge of SQL Programming for Query building and writing functions.
- Good understanding of object-oriented programming design.
- Familiarity with front-end technologies like HTML, CSS, and JavaScript.
- Excellent verbal and written communication skills.
- Strong analytical, organizational, interpersonal skills, able to learn and comprehend new systems and technology quickly.

Certifications

- Advanced Java programming with JavaFx – January 2024
 - Java Programming by Infosys Springboard – Jul 2023
 - Foundations of User Experience (UX) Design by Coursera – May 2023
 - JavaScript with HTML5, CSS3 from zero to Expert 2022 by Udemy – Jul 2021
-

Experience

July 31 - Coding Specialist (Contractor)

Present Uber Technologies Inc

- Developed and optimized backend systems using Java and Spring Boot to improve service performance.

- Enhanced API functionality and efficiency, contributing to faster response times.
- Participated in Agile sprints, delivering features and fixing critical bugs.
- Collaborated with teams on code reviews and followed best practices to ensure high-quality code.

May 2022 - Software Developer (Full Time)

January 2024 Codevidhya India Private Limited.

- Analysis and implementation of user given stories.
- Worked on Java, Android, Servlets.
- Used Spring and Spring Boot to create modular components, improving application flexibility and scalability.
- Implemented Spring Modules and JUnit for thorough testing, ensuring the reliability of critical modules.
- Using Maven scripts to compile and generate archives.
- Assisted in troubleshooting and resolving software defects and issues.
- Implemented new features and functionality, ensuring adherence to coding standards and best practices.
- Contributed to the documentation of software designs, processes, and procedures.

Nov 2021 - Software Developer (Internship)

April 2022 Codevidhya India Private Limited.

- Developed and maintained Java applications in collaboration with a team of software developers.
- Developed Micro services and components with Spring Boot, REST API
- Assisted in the implementation of new features and functionality, debugging and troubleshooting issues, and optimising application performance.
- Participated in code reviews, giving constructive feedback and ensuring adherence to Java coding standards and best practices.
- Contributed to the development of database schemas and integration with backend systems.
- Participated actively in Agile sprint planning, daily stand-ups, and retrospectives, encouraging effective teamwork and project management.

Education

- Master of Computer Application Pune University 2022 with (89% First Class with Distinction).
- Bachelor of Computer Science, Pune University 2020 with (65% First Class).
